

Environmental Policy

Doxbond is committed to the care of the environment and the prevention of pollution. The Company acknowledges its responsibility to ensure that all our operations are carried out in with the minimum adverse effect on the environment, and to comply with all applicable legal and other requirements to which we subscribe which relate to our environmental aspects.

The Company is equally committed to continually improve its environmental performance. This policy provides a framework for periodically setting and reviewing objectives and targets as part of that commitment.

In line with these principles it is our policy to: -

- Assess our activities, products and services with respect to their environmental aspects and impacts, and incorporate all practicable procedures and controls to prevent environmental damage and pollution.
- Minimize, control and as far as possible prevent the release of pollutants or other substances to air, water or land.
- Improve the efficiency of our operations by monitoring our consumption of energy and resource, and reducing, reusing or recycling waste materials.
- Introduce and maintain an Environmental Management System which conforms with our corporate standards pertaining to quality and control

This policy is displayed on our company notice board(s) and communicated to all employees, along with their individual responsibilities, through appropriate training and awareness-raising. It is publicly available on request to customers, suppliers, and the general public.

The Environmental Policy shall be reviewed annually by the company Directors.
